and the other, that the shares for sale The inference to be drawn from these apparent elements of the situation is that the price of gas for the present has reached the top, and that the amount of the stock that can be purchased at the figures that have prevailed has been

On the present movement in Gas the

155% of New York, whom he represents. A great many rumors have been in circulation recently as to the probable disposition of the stock which has been 141% bought so assiduously for two months: is the ultimate buyer, is flatly contradicted by his representatives in this citymen who ought to be in a position to

men who ought 131% know the facts.
Another rumor Another rumor is that strong New York parties are the purchasers of the stock, with the hope of ultimate control of the shares purchased on the present movement have been taken over, paid for, and have disappeared from the market. It is understood that they have not been used in Washington as the basis of loans with shares purchased on the present move-132% ment have been taken over, paid for, and 132% have disappeared from the market. It is

Another theory, which has about it some indications of the truth, is that some local capitalists are the ultimate Washington Gas 4s .. purchasers of the stock, and that they Washington Gas certified 6s. are acquiring it with a view to assuming an influential place later on in the | Anacostia and Potomac 5s... affairs of the company. It is assumed City and Suburban 5a. that the local capitalists, whoever they may be, are operating through the New Metropolitan York house with the express purpose of Washington Railway and Electric 4s. covering their tracks, as they are not ready or willing to show their hand with reference to their purchases of the stock.

Some well informed men in local financial affairs go so far as to say these local men have an amplition to get conlocal men have an ambition to get conlocal men have an amoution to get the company, much as local capitalists have of the Washington Rallway and Electric Company, with the avowed purpose of using it as a means for the purpose of using it as a means for the purpose of local capital in a local Norfolk and Washington Steamboat. investment of local capital in a local Norf enterprise which has been proved to be a good dividend payer, and has a fair Bell Bell theory call "proper management."

It is impossible to run down to a verity any of these stories. They are the rumors that have been going around financial circles for the past few days, and all of them are set forth by persons with great positiveness of their truth. The facts are that about 6,000 shares of the stock have been picked up in the cal market and gathered into somebody's keeping. These shares have been ought all the way from 58 to 77%, and while the movement has been in progress while the movement has been in progress.
